TSCA Compliance Statement

Dear customer,

On January 6, 2021, the U.S. Environmental Protection Agency (EPA) published final rules under Toxic Substances Control Act (TSCA) Section 6(h) to restrict the importation and use of five persistent, bioaccumulative, and toxic (PBT) chemicals.

Based on the verified information of our suppliers, the products from Hirschmann Automation and Control GmbH **do not contain** substances on the Toxic Substances Control Act (TSCA) list. These substances are:

- PIP (3:1), phenol, isopropylated phosphate (3:1), CAS 68937-41-7 (restriction date per originally published final rule: March 8, 2021).
- DecaBDE, decabromodiphenyl ether, CAS 1163-19-5 (restriction date per originally published final rule: January 6, 2021).
- 2,4,6 TTBP, 2,4,6-tris(tert-butyl)phenol, CAS 732-26-3 (restriction date per originally published final rule: March 8, 2021).
- HCBd, hexachlorobutadiene, CAS 87-68-3, (restriction date per originally published final rule: March 8, 2021).
- PCTP, pentachlorothiophenol, CAS 133-49-3 (restriction date per originally published final rule: March 8, 2021).

Hirschmann products are intended in shape and design for further use or even end use without further modification. As these products are no chemicals or a responsive mixture of chemicals, they are exempt from the declaration obligation and do not need to be declared.

Best regards
Hirschmann Automation and Control GmbH
