

February 2026

Statement on Battery Regulation (EU) 2023/1542

Dear Customer,

Based on our developments, Hirschmann routers and switches as well as the Lumberg and Hirschmann plugs and connectors do not contain batteries.

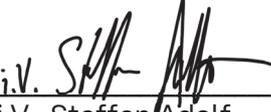

A few exceptions to devices that contain a lithium button cell battery are listed in table 1 below.

According to our supplier data, the batteries contained are compliant with article 6 of the Battery Regulation (EU) 2023/1542.

We fulfill our applicable reporting obligations. In addition, Rebat is designated as Operator of the Host (OfH) for the take-back system.

Updates to the Battery Regulation are continuously followed to ensure product conformity.

Best regards,
Hirschmann Automation and Control GmbH
Belden Deutschland GmbH
