Statement on Deforestation

Dear supplier,

In order to minimise the EU's contribution to global deforestation and forest degradation and to reduce the EU's contribution to greenhouse gas emissions and global biodiversity loss, in the future, relevant commodities and products may only be placed on the EU market, made available in or exported from the EU if they are deforestation-free, they have been produced in accordance with the relevant legislation of the country of production and they are covered by a due diligence statement

The regulation applies to the relevant commodities wood, cocoa, coffee, rubber, oil palm, soya and cattle as well as the products derived therefrom in accordance with Annex I of the Regulation.

None of the pertinent commodities are utilized at Hirschmann Automation and Control GmbH and Belden Deutschland GmbH. The packaging materials, which serve to support, protect, or transport other products, are not subject to the Deforestation Regulation and are therefore out of scope.

At Hirschmann and Belden Deutschland, we recognize our responsibility to the environment and society, which is why we source these packaging materials exclusively from trusted, audited European suppliers.

Best regards,
Hirschmann Automation and Control GmbH
Belden Deutschland GmbH
